## SECTION 2: Governance

### Unique Student Identifier (USI)

If you are undertaking nationally recognised training, you need a USI to enrol. If you do not have a USI, you will not receive a qualification or statement of attainment. It is vital to have a USI.

A USI provides access to an online record of training you have completed since 1st January 2015. It also allows you to produce a transcript of training completed which can be used when applying for a job, seeking a credit transfer, or meeting pre-requisites required to undertake further training.

#### How to apply for and advise of your USI

Creating a USI is free. Visit the USI website at [www.usi.gov.au](http://www.usi.gov.au), select the 'Create your USI' link and follow the steps. This web site also provides more information about the USI.

#### Please note:

- When you create a USI, enter your details exactly as they appear on your identification documents.
- When you enrol with us, you will need to use the same details used to create your USI. Do not use a preferred or abbreviated name.
- Update your USI when you change your name – this is very important.

After you create a USI, notify us and any other training organisation you study with, so your training outcomes can be linked. Once registered, you will be able to:

- Give your USI to each training organisation you study with
- View and update your details in your USI account.
- View and download your training records and transcript.
- Manage which training organisation can view your transcript.
- Manage which training organisations can view and/or update your details in your USI account.

Visit [Link Unique Student Identifier | myGov](#) to find out more details regarding linking your USI to your myGov account, if you wish.

## Assessment Methods

OSCA uses a variety of assessment methods where a qualified assessor makes a judgement on whether competency has been achieved. For a competency to be achieved, the assessor will need to confirm that you can perform to the standard required in the workplace as specified in the relevant training package.

An example of assessment methods includes but is not limited to

- Theory assessment – either cloud/electronic or paper-based
- Practical Assessment/Observation on the job or in a simulated environment
- Portfolio of evidence
- Verbal questioning.

Not all assessment methods are used however, for each unit of competency two or more assessment methods will be used to ascertain whether you have been successful in demonstrating the required knowledge, in line with each of the unit's requirements.

## Language Literacy and Numeracy (LLN)

All students will be asked if they require additional support for literacy and numeracy during the enrolment process. We encourage you to advise if you have a LLN requirement.

You will also be asked to complete a formal LLN assessment to determine your literacy and numeracy skills levels as this assists OSCA to offer support where necessary.

It is important to complete this assessment without assistance, as this will provide us with a true reflection of your skills. For any technical assistance, please contact OSCA.

If required, OSCA staff will work with you to develop a Training support plan. The Training support plan is to plan the support required to give you the best chance of successfully completing the course. We are here to help.

## Feedback

Feedback is important for both us and our students.

Your assessor will provide feedback to you during Training and Assessment. We trust you find this valuable and that it helps to you achieve your goals.

We also invite feedback. There is an opportunity for you to provide feedback in the comments of each assessment, verbally and on student evaluation forms.

We welcome feedback as it contributes to our Training and Assessing strategies and our desire to continuously improve.

## Complaints and appeals

All complaints and appeals will be courteously and professionally managed and responded to in a fair, equitable and timely manner.
